## Water usage calculations

Name: \_\_\_\_\_

The graph below shows the average water used by each person every day in various communities. The averages were calculated from data collected over twelve months.

Use the graph to answer the questions on pages 2 and 3.

### Water use - 12 month average

# Water

## Let's be sustainable

[www.kesab.asn.au/sawater](http://www.kesab.asn.au/sawater)

1. Which community uses the most water per person per day?

---

2. Which community uses the least water?

---

3. Which community uses just over 600 litres per person per day?

---

4. Approximately how many litres of water are used by each person in Amata every day?

---

5. Look at the data for Kaljiti, Umuwa and Pipalyatjara. What comment could you make if you compare these communities?

---

---

---

6. Who uses the most water? Circle your answer.

Yalata      Mimili      Indulkana

7. Who uses the least water? Circle your answer.

Nepabunna      Kaltjiti      Kalka

8. On the graph, record how much water is used by each person in each community per day. You will need to estimate. How close was your estimation?
