

Save packaging – buy in bulk!

Name: _____

Select five packaged items that your family buys regularly (such as chips, rice, flour, milk etc.). List these in the first column. Use shopping websites to find the price for the brand you usually buy and then find a price for a bulk option. How much money can be saved by buying in bulk? The first example has been completed for you.

Once completed, discuss the impact on budget and of reduced packaging.

Item	Packaging size and price per 100g/ml	Bulk packaging size and price per 100g/ml	Money saved by buying in bulk (per 100g/ml)
Strawberry yoghurt	140g pouch = \$1.61 per 100g	1kg tub = \$0.40 per 100g	\$1.20 per 100g
