## SCHOOLS PROGRAM

### What is the East Waste Schools Program?

East Waste schools are invited to nominate their site for a year-long program of waste education, delivered by KESAB *environmental solutions*.

The focus of the 2024 program will be:  
***Food waste reduction and diversion.***

### What does it involve?

KESAB will work with each participating school to develop a program of activities, tailored to the school community and calendar.

Activities will include a Wipe Out Waste bin materials audit (and re-audit), staff professional development, school sessions and family engagement.

Students will produce a short video about reducing food to landfill – the video judged best will win a prize!

The cost of the program is fully-funded by East Waste for one school per East Waste Council each year.

### How do I find out more?

Further details are available at  
**[www.kesab.asn.au/programs](http://www.kesab.asn.au/programs)**  
or call KESAB on 08 8234 7255 to discuss.

### Nominations close on Friday 24 November 2023.

Nomination forms are available online or on request.

Proudly delivered in partnership with
