INCURSIONS

RECYCLING RHYTHMS

APPROX. 30 MINS

This activity walks children through the journey of the kerbside bins via visual big books and an interactive bin game. Children place materials into coloured bins tailored to your local council bin system, with rhymes to remember. A discussion about tricky items can help answer any questions and support good resource management onsite and at home.

First session \$290 GST inclusive, consecutive sessions \$115 GST inclusive

PAPERMAKING

APPROX. 60 MINS

KESAB provides the materials, equipment and expertise to assist children to make their own recycled paper, with links to recycling and environmental sustainability. A demonstration of the process is given to the whole group, before splitting into smaller groups where each child will get to create their own piece of recycled paper.

**Minimum of four adult assistants required depending on the size of the group. A wet area is recommended, ideally with hard floors for easy cleaning. A DIY papermaking kit is available for hire from the KESAB website.*

First session \$600 GST inclusive, consecutive sessions \$290 GST inclusive

COMPOSTING OR WORM FARMS

APPROX. 60 MINS

Our compost and garden expert can visit your site to demonstrate how to establish and maintain a healthy compost or worm farm. A great session for school gardens, this workshop can also be run as an indoor presentation.

**These sessions are beneficial if your site has existing compost or worm farm systems, or intends to acquire one for the session. Our expert can advise on best options for your site.*

First session \$375 GST inclusive, consecutive sessions \$175 GST inclusive

TAILORED SESSIONS

TIME & COST NEGOTIABLE

Tailored sessions for teachers, staff, carers and families are available and may include: waste management presentations, beeswax wrap workshops, recycle relays, DIY product workshops, lunchbox workshops and more. Please call us to customise your session.

Duty of care: All options require site staff/adult supervision

SITE SUPPORT OPTIONS

BIN SYSTEM ASSESSMENT

30-60 MINS

This is an interactive, site specific bin assessment, which will provide baseline information and written recommendations to maximise resource recovery, reduce landfill and improve sustainability.

**Time can vary according to site size, number of stakeholders involved and desired outcomes. Please speak to KESAB staff for a tailored approach.*

From \$500 GST inclusive - Site dependent - Please call to negotiate

RESOURCES

KESAB has multiple resources available to assist children and sites manage resources better.

The 'Let's be waste warriors' resource includes curriculum aligned lesson ideas and printable activity sheets that encourage children to reconsider waste, find solutions for common challenges and learn more about resource management. This free resource is available on the [KESAB website](#).

KESAB ASSOCIATED PROGRAMS

KESAB's Wipe Out Waste (WOW) is a South Australian initiative which supports a whole school or site to avoid and reduce waste. Free to schools and generously funded by Green Industries SA and delivered by KESAB, this program offers free educational support within 4 stages of a road mapped journey to better outcomes. All KESAB incursions and tours complement and build on the WOW program.

Cost subsidies for incursions may be available for schools in some council areas. Please contact KESAB and speak to a Waste Education Officer for more information.

All prices include GST. Extra travel costs apply for travel outside 20km CBD radius.

KESAB
environmental solutions

WHY CHOOSE KESAB?

- You will get access to KESAB's passionate team of experienced and qualified teachers and sustainability specialists.
- KESAB's incursions all link with KESAB's iconic free "Wipe Out Waste" school waste reduction program - adding value to your school's sustainability commitment.
- Plan complementary excursions to KESAB's Education Centre, located at a working waste facility and including visits to local recyclers and commercial composters.
- KESAB is a proud partner of the Department for Education.
- KESAB works with local and state government, business, community and schools to provide joined-up waste reduction messages.
- KESAB offers a comprehensive and holistic approach to waste reduction and resource recovery,
- Let KESAB, SA's longest-standing environmental not-for-profit organisation support your school to meet its sustainability, circular economy and waste reduction goals.
